Architecture Templates

Architecture Contracts Template

What is Architecture Contracts Template?

An Architecture Contracts Template is a structured document utilized within enterprise architecture frameworks like TOGAF, serving as a formal agreement that outlines the responsibilities, expectations, and deliverables for architectural work between stakeholders, typically between the architecture team and project teams or business units. This template ensures clear communication and alignment on architectural goals, relevant standards, compliance measures, and quality criteria throughout the project lifecycle, fostering accountability and facilitating effective governance. By employing an Architecture Contracts Template, architects can ensure that all parties understand their roles and commitments, thereby enhancing collaboration and the successful execution of architectural initiatives within the organization.

Architecture Contracts Template

Architecture Contracts Template

1. Contract Overview

- **Contract Name**:
- **Version**:
- **Date**:
- **Author(s)**:

2. Purpose

Describe the purpose of this architecture contract, outlining its goals and what it aims to achieve.

3. Scope

Define the scope of the architecture contract, including what is included and excluded.

4. Stakeholders

5. Architectural Principles

List the architectural principles that govern the development and use of the architecture described in this contract.

1. Principle #1
2. Principle #2
3. Principle #3
4. Principle #4

6. Requirements

6.1 Functional Requirements

- Requirement 1:
- Requirement 2:
- Requirement 3:

6.2 Non-Functional Requirements

- Requirement 1:
- Requirement 2:
- Requirement 3:

7. Deliverables

List the deliverables expected from the contract.

8. Constraints

Outline any constraints that must be considered during the architecture development.

9. Assumptions

List assumptions made during the creation of this architecture contract.

10. Approval

This document serves as a formal agreement on the architecture-specific requirements, principles, and outcomes agreed upon by the stakeholders involved.
