Business Principles, Goals, and Drivers Template

What is Business Principles, Goals, and Drivers Template?

The Business Principles, Goals, and Drivers Template serves as a structured framework for aligning an organization's strategic objectives with its operational capabilities and stakeholder requirements. Rooted in best practices from frameworks such as TOGAF (The Open Group Architecture Framework), this template helps solution architects and enterprise architects to clearly articulate the fundamental principles guiding business decisions, define specific, measurable goals that support the organization's vision, and identify key drivers—both internal and external—that influence those goals. By utilizing this template, architects can ensure that all technology solutions and architectural designs are not only aligned with business strategies but also adaptable to changing market conditions, thus fostering a cohesive approach to enterprise architecture that enhances overall organizational effectiveness and agility.
