# Business Rules Catalog Template

## What is Business Rules Catalog Template?

The Business Rules Catalog Template is a structured tool used in enterprise architecture to document, organize, and manage business rules within an organization, ensuring alignment with strategic objectives and compliance with regulatory requirements. By leveraging frameworks such as TOGAF (The Open Group Architecture Framework), stakeholders can ensure that business rules are clearly defined, traceable, and actionable, facilitating better decision-making and consistency across processes. This template enables architects and project managers to capture rules in a standardized format, allowing for effective communication, change management, and governance within the enterprise architecture, ultimately supporting the alignment of IT initiatives with business goals.
