Initial Risk Assessment Template

What is Initial Risk Assessment Template?

An Initial Risk Assessment Template is a foundational tool utilized by Solution Architects to systematically identify, evaluate, and document potential risks associated with a project or system architecture early in the development lifecycle. By applying best practices from frameworks like TOGAF (The Open Group Architecture Framework), this template facilitates the alignment of architectural goals with organizational risk management strategies. It provides a structured approach to categorize risks—such as technical, operational, compliance, and strategic risks—while also considering their potential impact and likelihood. Utilizing this template helps stakeholders make informed decisions, prioritize risk mitigation strategies, and ultimately support robust, secure, and resilient architectural solutions that align with the enterprise's overall strategic objectives.

Initial Risk Assessment Template

1. Project/Initiative Details

- **Project Name:**
- **Project Manager:**
- **Date of Assessment:**
- **Assessment Conducted By:**
- **Version:**

2. Purpose of the Assessment

- Briefly describe the purpose of this risk assessment and its importance to the project.

3. Risk Identification

R1 Example Risk 1 Technical
R2 Example Risk 2 Operational
R3 Example Risk 3 Financial

4. Risk Analysis

4.1 Risk Likelihood

- **1 - Rare:** May occur only in exceptional circumstances.
- **2 - Unlikely:** Could occur at some point in time.
- **3 - Possible:** Might occur at some time.
- **4 - Likely:** Will probably occur in most circumstances.
- **5 - Almost Certain:** Expected to occur in most circumstances.

4.2 Risk Impact

- **1 - Insignificant:** Negligible impact on objectives.
- **2 - Minor:** Minor impact on objectives.
- **3 - Moderate:** Moderate impact on objectives.
- **4 - Major:** Major impact on objectives.
- **5 - Catastrophic:** Critical impact on objectives.

5. Risk Treatment

- Outline the approach for managing identified risks, including further actions required, responsible persons, and timelines.

R1 Example Treatment Action 1	Not Started
R2 Example Treatment Action 2	In Progress
R3 Example Treatment Action 3	Completed

6. Monitoring and Review

- Describe the process for monitoring risks throughout the project lifecycle.

7. Conclusions and Recommendations

- Summarize the key findings from the assessment and provide recommendations for risk management.

8. Sign-off

- **Prepared by:**
- **Date:**
- **Approved by:**
- **Date:**
