

EABOK

<http://www.eabok.org/>

The Enterprise Architecture Body of Knowledge (EABOK) is an evolving reference of ready-to-use knowledge. To increase understanding, the components of this reference are organized, contextually linked, and visualized, and are intended to serve the EA community from novice to expert

Snippet from *Wikipedia*: [Enterprise Architecture Body of Knowledge](#)

The **Enterprise Architecture Body of Knowledge (EABOK)** is a guide to Enterprise Architecture produced by MITRE's Center for Innovative Computing and Informatics, and is substantially funded by US government agencies. It provides a critical review of enterprise architecture issues in the context of the needs of an organization. Because it provides a "big picture" view of needs and methods, some enterprise architecture practitioners recommend it as starting point for a business establishing an enterprise architecture unit.
