## Welcome

Greetings! Are you interested in delivery of quality software in less time? Then you have come to the right place. The ambition of this website is to guide you in the processes, disciplines and tools needed to create quality software faster.

Application Lifecycle Management (ALM) is a continuous process of managing the life of an application through [Governance](#), [Development](#) and [Operations](#). ALM recognizes that requirements are evolved based on business needs or ideas for new opportunities. Applications are the foundation from which business processes are executed. Actively managing applications controls cost and provides the agility needed to quickly take advantage of increasingly faster paced business demands. Application development disciplines and methodologies are managed, integrated and processed in the body of ALM.

### Governance

The purpose of governance is to make sure the application always provides what the business needs and covers the entire lifecycle.

[Agile Project management](#) [Change management](#) [Requirements management](#)

### Development

Agile Software Development, Software Development Lifecycle (SDLC) and DevOps practices.

[DevOps](#) [Architecture](#) [Computer programming](#) [Software testing](#)

### Operations

Information technology operations, or IT operations, refers to all processes and services that are provisioned by IT professionals.

[DevOps](#) [Software maintenance](#) [Release management](#) [Continuous integration](#)

## Guide to the ALM Body of Knowledge

The Body of Knowledge (BoK) provides the insights to improve business and development processes via knowledge areas and groupings of knowledge articles (disciplines, methodologies, products and tools) from both internal and external sources.

The ambition of this **free knowledge base** is to cover the high level perspective and to serve as your guide in Application Lifecycle Management. If you are interested in participating and develop the ALM - Body of Knowledge please [register](#) yourself.

Thank you and hope you have a pleasant visit here.

— ALMBoK
