Visual Build 3

Visual Build

https://www.kinook.com/VisBuildPro/

Visual Build enables developers and build masters to easily create an automated, repeatable build process.

Snippet from Wikipedia: ***Visual Build***

> **Visual Build** is GUI software for Windows that enables software developers and build masters to create an automated, repeatable process for software builds. It has built-in support for integrating various development tools into the build process. Projects are stored as XML to facilitate storage in version control systems.
